HETTRICK'S LATEST CREATION

DeLuxe DOOR CANOPIES

\$10.90
ea.
No. K-2126

1. Sun, Wind and Rain Protection for open porches and entry ways.
2. Two standard sizes—Three colorful patterns.
3. Heavy Awning Duck cover.
4. Simplified head-rod construction.
5. Sturdy Steel Frame that is easy to put up and take down.
6. Beautifies exteriors in colors to blend with House trim, roof and awnings.
7. Allows full door clearance.

Mr. Merchant, when you are looking for new merchandise to increase your sales and profits, we strongly recommend this new Hettrick Creation—DOOR CANOPIES.

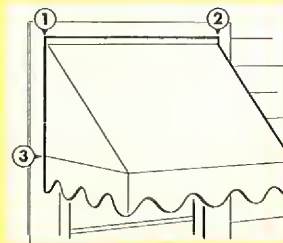

Practically every home owner in your community is a prospect for a protecting Door Canopy. Visualize the number of homes that are without any protection over the porch stoops and entry ways. Here is an item that is well made and at a price your customers can afford to pay.

Made of heavy, special construction quality Duck, painted solid color and stripe, treated in oil, developed and compounded in our own plant, thereby giving long life to the fabric. The very best materials and workmanship are employed. All seams are lap felled and double stitched with genuine "Hickory" thread. The front and side walls are joined with ridged seams for trim fit and longer life. Strain points are reinforced with double goods. Wide pocket for inserting the sturdy $\frac{3}{8}$ " solid steel rod frame. Supporting steel side braces that hold the canopy firmly and neatly. Rigid steel head rod and strong head rod clips for quick, easy put up and take down. Complete canopy ready to hang packed in clearly labeled cartons. Sh. Wt. 38", 14 lbs.; 44", 16 $\frac{1}{2}$ lbs.

HOW TO MEASURE AWNINGS

Window Awnings: For width measure from center to center of outside window frame (1 to 2). Order size nearest width measurement. Drop (1 to 3) is the measurement from center top of frame to the middle of the window.

Porch Awnings: For width measure from center to center of porch supports (1 to 2). Order size nearest width measurement. Drop (1 to 3) is one-half the distance from porch ceiling to floor. Be sure awning over entrance is high enough to walk under.

Complying with the Federal Trade Commission, the awnings listed have been manufactured to fit openings as indicated and do not necessarily reflect the exact measurement of the awning itself because canvas products are subject to shrinkage due to varying climatic conditions and possible retraction from tension applied in the course of manufacture.

Our guarantee protects you. You take no chance when stocking Hettrick awning values. The values are tops and the demand great. Here we present the market leaders in the awning field.

When selecting awnings, examine them closely. Make sure of the workmanship, quality, the sunfastness of colors you are going to get and, above all, the reputation of the manufacturer who stands back of the guarantee plus the service you are going to get.

Every Hettrick awning is guaranteed to be as represented or money back. Made from high quality awning fabric with a twill-like weave. Striped to accurate register of the very highest quality color pigments ground in a special blend of oils to make them retain their color fastness. Seams are lap-felled and double-stitched for longer life. Self-adjusting brass oval eyelets in wide top hem for easy installation and removal. Reinforced strain points. 2'5" arm, 2'6" wall plus 8½" curtain. Complete with plated fixtures and pull ropes.

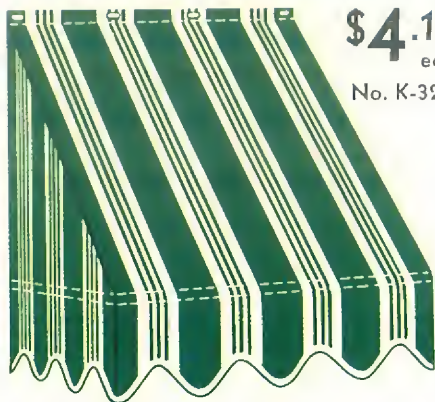

Single Window Sizes—(2'6" to 4'). Rust resistant steel awning frame. Packed individually in protecting envelopes, 10 of one size and pattern to the shipping carton. Shipping weight 2'6", 3 lbs. Add ¼ lb. each size larger.

Double and Triple Window Sizes—(4'6" to 7'). ¾" rust resistant solid steel frame with threaded side couplings. Individually packaged in clearly labeled cartons. Shipping weight 4'6", 6½ lbs. Add ½ lb. each size larger.

Ro-mer

... a HETTRICK Value that meets the sportsman's demand for Comfortable, Dry Camping

Window in Rear

SPECIAL NOTE

By customer request, the valance and tie tapes for extra curtains around the awning extension on Ro-Mer and Ottawa tents have been omitted. For tents with storm curtains and insect protecting bobbinet curtains, see the tents below and on the pages that follow.

Fast selling model that has annually built extra profits for dealers featuring this outstanding value. Expertly tailored from 6.73 oz. per sq. yd. Forest Green "Arctic Bay" oil-tempered treated tent drill. Sewed-in 7.44 oz. per sq. yd. heavy duck canvas floor. All seams are both lap-felled and double-stitched with special "Hickory" tent thread. Strain points reinforced with double goods for longer wear.

Rigidly supported by Hettrick's patented Goldberg clamp frame with pike jointed center pole and awning extension poles. 6'10" center height and 5'4" high at wall—4' square at eaves. 5' x 2'6" door protected with heavy insect-proof bobbinet curtain. 4' x 6'3" awning extension. Completely equipped.

Ottawa

A very well made lightweight tourist tent. Made like the "Ro-mer" of the same fine quality 6.73 oz. per sq. yd. genuine "Arctic Bay" treated Forest Green tent materials. Patented adjustable center-poleless steel tube frame made in one collapsible unit.

A VERY IMPORTANT NOTICE

Because of the limited steel supply, due to government regulations, we will be unable to manufacture sufficient quantities of merchandise requiring steel to take care of the needs of all our dealers. We will do everything possible to keep you supplied, but in fairness to all it is going to have to be on a "first come, first served" basis. We strongly urge you to get your orders in early.

GUARANTEED SATISFACTION. SQ. YD. WEIGHTS AS LISTED

Hettrick "Arctic Bay" treated tarpaulins are guaranteed to be as represented, showing not only "cut size" but "finished size" and weight (per square yard) before treating.

BE SURE THE **TARPAULINS** YOU STOCK MEET THESE RIGID SPECIFICATIONS

1. Specially constructed, high grade cotton duck. Actual weights before treating. Do not accept lighter weight duck substitutes. Insist on these rigid specifications before signing an order.
2. Genuine "Arctic Bay" oil-tempered treating a secret heat pressure, saturation process that thoroughly penetrates and impregnates every pore and fiber. Do not accept surface coating that merely adds excess weight.
3. Full "Dog-eared" corners with sewed-in cadmium plated malleable iron rings (not ordinary grommets) for tie ropes through double goods spaced approximately 48" apart. All seams are double stitched with genuine "Hickory" cord (not thread) assuring longer wear. All points of strain are reinforced with double goods.
